Download Microsoft Visual studio 2017 Community Edition

1) Compile the wxWidgets framework first:
Open:lib-src\wxWidgets-3.1.1\build\msw\wx_vc15.sln
Build the Release (x86) configuration

2) Compile the AVPTester project:
Open: \src\msvc\AVPTester\AVPTester.sln
Build the Release (x86) configuration

That should be it!
